

## Conversion System Overview

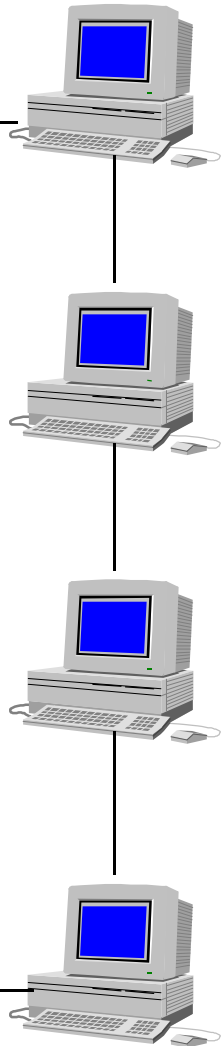

Once Wang VS data is backed up, the VS is no longer needed for conversion.

8mm, 4mm, 1/4",  
or 9 track reel tapes  
(or archive diskettes)  
can be converted by  
a PC equipped with  
**Fast 'n Easy(tm)**.

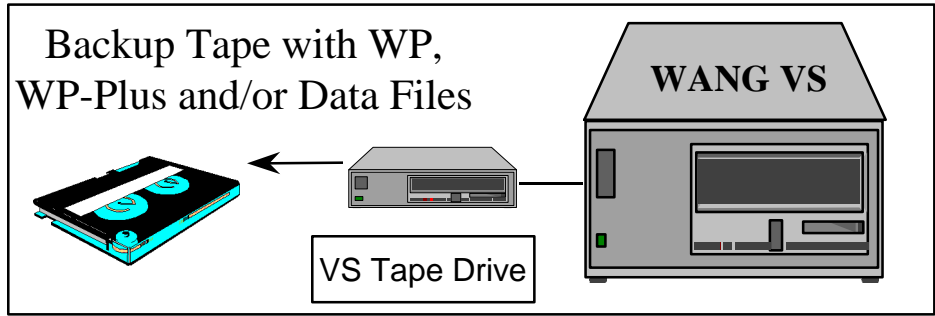

Documents and data files are converted with very high speed and accuracy. Importing to Document Management Systems is automated.

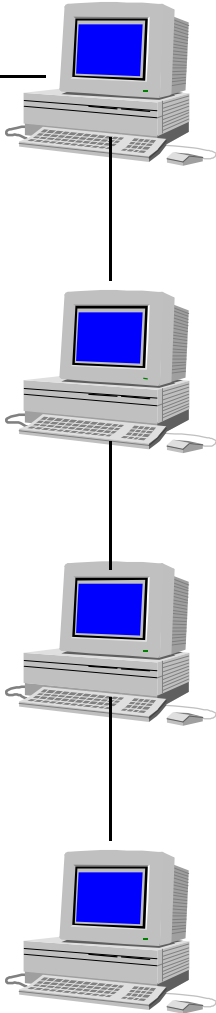

Call Muller Media Conversions at (212)344-0474

# On-site Conversion Service Overview

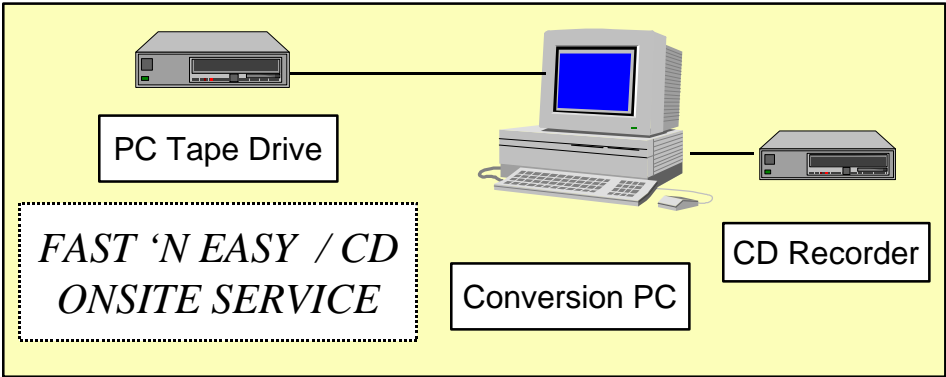

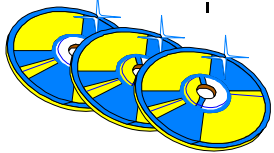

Once Wang VS data is backed up, the VS is no longer needed for conversion.

8mm, 4mm, 1/4", or 9 track reel tapes (or archive diskettes) can be converted by a PC equipped with **Fast 'n Easy(tm)**.

Documents and data files are converted quickly, accurately to CD-R or other media as appropriate. Files can subsequently be copied *en masse* or as-needed to the server or local PC.

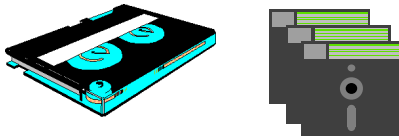

Call Muller Media Conversions at (212)344-0474 or see [www.mullermedia.com](http://www.mullermedia.com)

## Off-site Conversion Service Overview

Client sends 8mm, 4mm, 1/4", or 9 track reel tapes (or archive diskettes) to MMC for conversion via **Fast 'n Easy(tm)**.

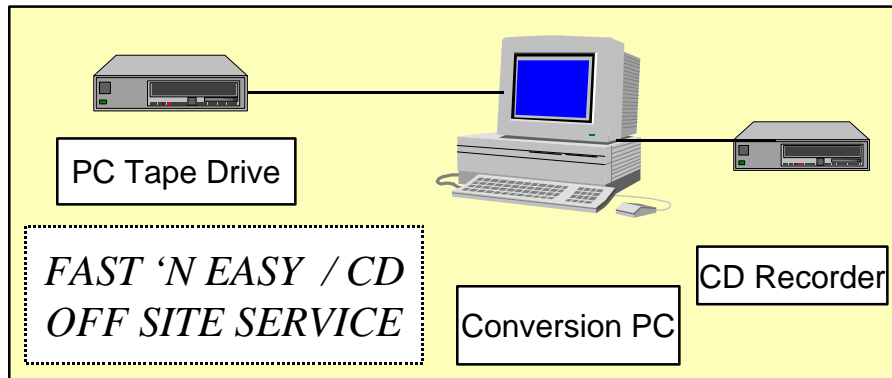

Client receives chosen file format & media. (e.g.- Word for Windows on CD)  
Files can be copied *en masse* or as-needed to network server or local PC.  
Automatic document management importing can be facilitated.

At MMC, legacy documents (or data files) are converted quickly, accurately to new wp or database format on CD-R or other appropriate media.

Optional Legacy Document Catalog database and application program provides client with ability to rapidly locate documents on CD or tape.
